

2020 New Drug Update

December 2, 2020

1:30 pm–3:30 pm

Location

Participate Live via Remote Webcam

Participate live via Web video connection from your home, office or anywhere with a strong broadband connection and your PC, laptop, iOS device (iPad/iPhone) or Android device. Connection details will be provided prior to the event. Device must have camera/audio/video capabilities.

Program Overview & Objectives

This 2.0 hour knowledge-based continuing education program will review new medications to the market, including their indications and clinical utility, pharmacology, drug interactions, adverse effects and key monitoring parameters, and important patient counseling information. Following each medication review, the drug will be compared to other medications in its class or similar treatment agents to highlight potential place in therapy.

Upon completion of this program, participants will be able to:

- Identify new pharmacologic treatment options that have come to market in the past 12 months
- Discuss indication, pharmacology, drug interactions, adverse effects and key patient counseling information for new pharmacologic treatments
- Appraise the potential role in therapy of new pharmacologic treatments compared to other medications in class or alternative treatments for indicated condition

Who Should Participate

This workshop will be highly beneficial to pharmacists, pharmacy technicians and nurses.

As part of its commitment to diversity and inclusion, the Northwest AHEC and Wake Forest Baptist Health provides compassionate education and respectful care for all, regardless of sexual orientation, gender identity or expression.
