

# Fetal Alcohol Spectrum Disorders: Looking Beyond Immediate Birth Outcomes

Thursday, September 29, 2022

10 AM - 12:15 PM

Live Webinar

## Program Overview and Objectives

This two-hour live webinar will focus on the importance of preventing alcohol-exposed pregnancies, and how fetal alcohol spectrum disorders may present across the lifespan.

Webex Activities - You will receive a separate email with the connection details. This information is also in the course section for this event (click OPEN button when logged in and registered). You will need to complete a short Webex registration prior to joining the activity. Please visit <https://www.webex.com/test-meeting.html> PRIOR to your event time to join a test meeting for optimizing your device settings. Upon completion of this program, participants should be better able to:

- Define Fetal Alcohol Spectrum Disorders (FASD).
- Identify how this disorder may present beyond immediate birth outcomes.
- Recognize the impact of prenatal alcohol exposure on the developing brain.
- Identify strategies for preventing alcohol exposed pregnancies.

## Who Should Participate

Certified nurse midwives, doulas, all disciplines caring for pregnant individuals, substance use treatment and prevention specialists, nurses, mental health counselors, psychologists, educators, social workers and any health care professionals working with families affected by FASD.

As part of our commitment to diversity and inclusion, the Northwest AHEC provides compassionate education and respectful care for all, regardless of socioeconomic status, race, ethnicity, language, nationality, sex, gender identity, sexual orientation, religion, geography, disability and age.
