Keynote Speaker

Adam Yopp, MD

Associate Professor and Division Chief
UT Southwestern Medical Center

Adam Yopp, MD, specializes in surgeries for cancers of the gastrointestinal tract, liver, pancreas, stomach, and bile duct. He is the Surgical Director of the Liver Tumor Program at UT Southwestern. In addition, he is the Director of the Tissue Specimen Resource at Harold C. Simmons Comprehensive Cancer Center.

Course Objectives

Upon completion of this activity, you will be better able to:

- Characterize hepatic arterial pump therapy as treatment for colorectal liver metastases.
- Discuss regional therapy options for patients with primary and secondary hepatic malignancies.
- Summarize management options for hepatocellular carcinomas and cholangiocarcinomas.
- Describe modern therapeutic options for pancreatic cancers.
