Attention: Based on the impact of Hurricane Helene, the November 2024 Webinar has been rescheduled to March 13, 2025.

As we continue to celebrate the unique role and essential service of nursing in rural healthcare, the NC AHEC Nurse Council welcomes you to join us for the 7th Annual NC AHEC Celebration of Rural Nursing Conference. This year we will address statewide healthcare network resources and pathways to improve access to care for your patients and families.

Our expert speaker faculty and panel members will be diverse in offering a variety of community health agencies and interprofessional service providers whose focus is prevention, primary care, improving public health and rural access. The learner will gain new knowledge of updated and new programs across North Carolina and how to gain utilization and agency partnership support in the communities you serve.

This conference is designed for all nurses who are serving vulnerable populations in under-resourced and rural areas and those interested in healthcare prevention, primary care, school health and community health for all ages across the continuum of holistic care of integrated behavioral and physical health.

This program is supported by NC AHEC Nurse Council and the NC AHEC system.
